

Complement your EAM strategy with Ultimo

A powerful EAM solution that integrates perfectly with SAP

Ultimo's Specialized EAM Capabilities

Integrating Ultimo with SAP brings a wealth of benefits:

User-Friendly Interface

Designed for ease of use, Ultimo offers an intuitive UI that simplifies asset management tasks

Unmatched Return on Investment

Ultimo benefits all levels in the organization. Ultimo's value return is clear and long term

HSE Integration

Ensure compliance and a safer work environment with integrated HSE functionalities

Rapid Deployment

Ultimo's best-of-breed EAM software is operational within weeks, minimizing IT overhead

Optimized Asset Performance

Reduce downtime and boost efficiency through advanced maintenance planning and comprehensive asset tracking

Mobile

Workers can access asset data and work order information on the go, leading to more efficient ways of working

Seamless Integration for Streamlined Operations

Complement ERP with Ultimo

Ultimo and SAP combined offer:

Data Accuracy and Integrity: Certified by SAP, Ultimo maintains consistent and reliable data across systems

Efficient Processing: Data exchange between Ultimo and SAP is smooth and complete, supporting processes in procurement, finance, services, supply chain management, HR, sales and manufacturing

Work smarter, not Harder: Manage maintenance tasks within Ultimo, while financial data seamlessly syncs with SAP, reducing administrative burden

Have the best of **both worlds!**
